Available in three distinct styles, the supremely simple and elegant Sleepover lounge seating pays meticulous attention to detail and quality construction. Offering generous comfortable support in every position, the Sleepover easily glides from being fully upright into a completely flat full length sleep surface.

Designed for interiors where space is limited, the Sleepover requires zero wall clearance allowing it to be placed flush against the wall. Standard Facelift Collection features include Velcro attached upholstery and a full antimicrobial moisture barrier protecting all cushioning. Optional in-line casters are available for additional mobility during housekeeping.
