Drop-Down Arm

The simple path from bed to chair can be a serious challenge for patients during their recovery period. Our drop-down arm greatly eases this movement especially when the patient requires clinician assistance. The arm drops to seat level with a simple pull on the release knob. Fully upholstered, urethane, and solid wood arm caps are available.

PRODUCT STYLES:

Fully Upholstered Arm

Recliner Positions

Position #1: Upright

Position #2: Extended Footrest

Position #3: Layflat

Position #4: Trendelenburg

Velcro attached upholstery, antimicrobial moisture barrier and easily replaced components are standard features of our expanding Facelift Evolve Collection. The complete line of patient care recliners and gliders, which includes wall-saver, lay-flat and trendelenburg models, joins the Evolve lounge chairs and sofas, guest and tandem seating, ottomans, and tables. Regardless of the damage, items can get a "facelift" simply by replacing any worn component. Requests for custom sizes and features are welcomed. Made exclusively in the United States of America.
