## Facelift Recliner Quick-Look

### RECUPERATIVE <sup>⊞</sup> (EXTENDED STAY)

Tailor made for senior living and healthcare, our new recliner has a detachable seat and a complete sealed under-seat cushion system giving end users an easy cleaning job, Ace comes standard w/ removable covers & moisture barrier on the seat & back. The wall saver design saves floor space allowing for multiple applications including senior living, waiting areas, break rooms, lactation rooms, and many more.

Ace #1055-A <sup>⊞</sup>

### WALLSAVER

With healthcare environments shrinking, the ability to place our recliner in very close proximity to the wall can save valuable floor space. The robust release lever is appropriately located on the inside of the arm to relieve issues of braking or snagging tubes/cables. Optional casters or central braking is available.

### WEIGHT ACTIVATED

With it's durable design, our 3 position push-motion recliner keeps comfort in mind. Positions include fully upright, TV recline, and full recline. Without handles, pulls or pinch points to activate, the use of this recliner is totally in the users hands. This is Trinity's best starting price point for a traveling recliner.

### LAYFLAT

Trinity's best-selling layflat medical recliner has combined comfort with functionality. The perfect fit for acute care needs is enhanced by its ability to lie almost completely flat. The seat and back are operated independently of each other, allowing the user to find their own preferred position of comfort.
